Ingenious extension for the children's bed Canopy with bow suitable for

When your little one has outgrown the babybay[®], we have the perfect solution: With a few simple steps you can turn your babybay[®] Original, Maxi or Boxspring into a fully-fledged children's bed.

Original babybay[®] - Perfection in detail

Bigger, with a new design - babybay[®] Maxi Comfort Plus.

Plaited babybay® nest bumper suitable forall models.

Convertible in many ways With our original accessories, your babybay® can be easily extended and transformed!

babybay cuddly blanket, dark grey stars white Pleasantly cuddly and skinfriendly microfibre fleece.

for a playpen The connecting clamps turn two babybays into a practical playpen. Bassinet Castors Together with the abrasionresistant, super quiet lockable castors, babybay[®] becomes a

fully-fledged bassinet.

In the snuggly nest, your baby feels safe all around and cannot fall out thanks to the high soft edge - an absolute winner for safety and comfort!

High-quality hooded towel The cuddly soft terry cloth is gentle on baby's sensitive skin - made according to Oeko-Tex Standard 100.

Success story babybay[®] The Original

Right next to Mummy and Daddy: Happy babies - relaxed parents.

Dear Parents,

Inspired by the longing for restful nights, my wife and I came up with a **completely new sleeping solution** over 15 years ago. On the one hand, it should give our newborn the **security of his own, confined cot**, and on the other hand **allow bodycontact** at any time without disturbing the sleep of mother and baby.

Initially developed for us, the demand for our bed among our friends alone was soon so great that we decided to develop it further together with TÜV (German Technical Inspection Authority) until it was ready for series production. The original babybay[®] was born! Meanwhile, babybay® has inspired well over a half a million parents around the world, 100% of midwives recommend our babybay® and most birthing centres use the unique benefits of our cots.

You too can now put together your **individual babybay**[®] - with the matching mattress, a soft nest and other **handy accessories**. So that your little one is very close to you at night for breastfeeding, comforting or cuddling.

Wishing you never have to get up in the night again Yours

The best cot for your most precious treasure demand the best!

ALWAYS FITS PERFECTLY

The **continuously height-adjustable** lying surface, which we invented and patented, can be adapted **exactly to any bed height** - **without a step, without a gap**. Always flush with Mummy's bed - the perfect bedside sleeper.

COPYING MOTHER NATURE

We use only **natural solid beech** from European forests and **no** questionable glued wood or cheap wood substitutes. Beech wood is naturally **antistatic and antibacterial**.

The **adjustable fastening systems** allow you to fasten the babybay[®] from above or below **securely and without requiring tools** to the parent's bed. It is just as easy to remove it again.

QUICK-CHANGE ARTIST

Once your baby has outgrown the cot, you can easily expand babybay[®] depending on the model **and continue to use it** as a highchair, playpen, bench, table or turn it into a **fabulous children's bed**.

TESTED & SAFE

Naturally, babybay® is **TÜV-tested**. All nests and mattresses are carefully **testedfor harmful substances**. Our mattresses bear the **"Confidence in textiles"** mark according to OEKO-TEX® Standard 100 and meet the **latest DIN EN 16890 standard** for children's beds and cribs.

1001 POSSIBILITIES

Models for every need, colourful finish or untreated, custom-fit mattresses and a variety of nest and Canopy fabrics offer almost **unlimited possibilities**. Even for twins or fancy beds (e.g. futons or box springs) everyone will find their perfect babybay[®].

Thanks to **removable bars** and a removable **safety gate**, our children's bed adapts perfectly to the development of your child.

Where children's dreams come true – **babybay® Children's bed for big little ones**

Children's bed conversion kit

At some point, your little one will outgrow the babybay[®] and need a **larger bed**. The conversion kit turns babybay[®] into a fully-fledged **children's bed with a slatted base**, tested according to the strict DIN EN 716-1 standard for children's beds. The **continuously adjustable lying surface** can always be lowered to prevent the child from falling out. Thanks to **removable bars**, older children can get in and out themselves and are still protected. Later, the side rail on the left or right can be removed completely. Lying surface extension with soft pad

Extends the lying surface to the front and thus bridges wide bed frames up to 15 cm. At the same time, this also creates more space for your baby. Including mattress supplement made of breathable foam core, with soft cover made of 100% cotton. If the extension is no longer needed, it can be turned into an elegant wall shelf in a few simple steps.

The side extension is made entirely of natural, antibacterial and antistatic solid beech wood - without compromise, without wood substitutes and comes from sustainably managed native forests.

The pleasure of pure nature - **babybay® Swiss pine wood lying surface**

The feel-good oasis for your home

Swiss pine has a particularly **comforting smell** that brings you a little closer to the scent of the mountains and stays with you for a long time. The scent **stabilises the circulation** in the event of fluctuating air pressure and **calms and relaxes** the human **organism**. The pine scent develops throughout the room, so that not only your baby but also you can enjoy the benefits of this lying surface and experience heavenly nights.

Swiss pine also contains the **antibacterial and anti-fungal** active ingredient pinosylvin and has further **pest-inhibiting properties**, which are effective against moths and other insects, for example.

Supports and protects your baby at all times **babybay® Nest Bumper Snakes**

Many babies sleep best on their side, especially in the first few weeks. This is where the babybay nest bumper snake comes in handy: Not too tightly filled so that it is pleasantly soft and malleable to support baby's back snugly and not as voluminous

as a breastfeeding pillow (but still good to use in this way). The nest bumper snake also protects against hard rungs in the bed or playpen and against edges on the changing unit.

More than a children's bed babybay[®] Baby and children's bed All in One

The perfect multifunctional companion from baby to teenage years.

Like all babybay[®] products, the babybay[®] All in One offers many more options than are apparent at first glance and thus clearly stands out from comparable children's beds. There comes a time when your baby is too big for the babybay[®] and should move into its own bed. This step can be very stressful because the child lacks the close-

ness to the parents it has become accustomed to. In this case, the babybay® All in One offers the possibility to be converted back into a

bedside sleeper.

Without a gap to the parents' bed

The protruding slatted base enables a seamless connection to the parents' bed. Uniquely functional - no other children's bed can do that.

Comfortable to lie on

The specially adapted spacing of the archshaped pressed sprung wood slats enables optimum lying comfort and perfect ventilation

As a children's bed, the babybay® All in One impresses with its quality, functionality and award-winning design. Within a few minutes, the children's bed can be converted into a stylish teenager's bed using the side panels included with the delivery.

Highest standards of safety

All edges and corners are rounded so that there is no risk of injury to your child. The construction is particularly robust and stable.

The perfect all-rounder - **Quality, functionality, design**

Bedside sleeper

The special feature of the babybay All in One is that due to the protruding slatted base and the height adjustability, there is no gap between the parents' and the children's bed. This way, you can still have your baby very close to you and bring them into bed with you when needed without having to get up.

Cot

Sofa

The cot that grows with baby thanks to the 4-fold height adjustment impresses with its design, functionality and optimal lying comfort. Your child will feel completely at ease.

Children's bed

When the little ones grow up, three rungs can be removed without tools. This way, your loved ones can go to bed or get up independently, but do not have to do without protection against falling out.

Teenager's bed

As your child gets older, the children's bed can be converted into a teenager's bed in just a few steps. The design fits perfectly into any modern teenager's room.

With just a few extra cushions, the children's bed

elegant and practical in any room.

For dreamy feel-good nights – **babybay**[®] **Children's Bedding**

Dreamy children's bed linen with nest and Canopy

Your child will love our new children's bedding in four heavenly colours. The 2-piece set of duvet (100 × 135 cm) and pillow (40 × 60 cm) is made of pleasantly soft piqué fabric for a dreamy sleep.

The bed linen can be changed effortlessly thanks to the concealed zip and washed at 40°C; it is also suitable for tumble drying (100% cotton). There is a soft children's bed nest and an airy Canopy to match. The matching Canopy rod is suitable for all children's beds and cots.

Effortlessly from one place to another – **babybay® Castor Set**

Children's bed castors

Together with the **quiet**, **abrasion-resistant**, **lockable castors**, babybay[®] becomes a fully-fledged bassinet. This way, your baby is always close by, even during the day.

Two of the four castors are equipped with an easy-to-use **foot brake** and can thus be locked very easily after movement.

The versatile star in the nursery – **babycube**®

A cube, a chair, a table?

babycube® is everything in one: Two identical halves pushed together to form a cube offer plenty of room for children's creativity: Whether as a throne for little kings and queens, a portable drawing table, a bedside cabinet or a tunnel for the toy train -

babycube[®] does it all and has been delighting children and parents alike for decades.

babycube® is made from pollutant-free birch plywood, sturdily screwed together and yet light enough for small children's hands.

One design, many possibilities

The asymmetrical seats offer two different seat heights by simply turning them around. By tilting it on its side, it becomes a little table or a climbing aid - strong enough even for adults. And when it's not in use, the babycube® can be easily pushed together again and stored in a space-saving way.

> babycube[®] can be extended with a bench to create a space-saving play table for two or seating for four children. The chair elements can thus be easily stored when pushed together with the bench. babycube[®] is available in a clear finish wood colour with a red and a blue seat or in semi-matt white with a light blue and pink seat area.
