

**The best decision, right from the beginning –  
our original baby cots, versatile accessories  
and complementary products**

*Right there, close to me!*

**babybay®**

**babybay®**

Dear Parents,

Fifteen years ago, spurred on by the longing for quiet nights, my wife and I came upon the idea of a **completely new sleep solution**. On the one hand, we wanted it to provide our newborn with the **security of their own limited cot**, on the other hand, it had to **always allow physical contact** without disturbing the sleep of mother and baby.

It was initially designed just for us, but the demand for our bed in our circle of friends alone soon became so great that we decided to further develop it ready for production **together with the TÜV** (an inspection and certification service ensuring high quality and safety). The **original babybay®** was born!

In the meantime, **babybay®** has **delighted** well over **half a million parents** around the world, 100 % of **midwives** recommend our **babybay®**, and most **maternity wards** take advantage of the unique benefits of our baby crib.

Now you can put together your **individual babybay®** – with the matching mattress, a soft inner bedding „nest“ and other **useful accessories**. This way, your precious little one is very close to you at night – for breastfeeding, comforting or cuddling.

Wishing you many nights without having to get up,  
Yours,

# The best baby bed for your most precious bundle – be demanding!

## ALWAYS A GOOD FIT

The **infinitely height-adjustable** sleep surface, which we invented and patented, can be **adapted precisely to any bed height – without steps or gaps**. Always flush on a level with mummy's bed - the ultimate side-sleeper bed.

## EASY HANDLING

Thanks to the **adjustable fastening systems**, you can secure the babybay® **safely and without tools** to the parent's bed from above or below. It's just as easy to remove it again.

## 1001 POSSIBILITIES

Models for every need, painted or untreated, custom-fit mattresses and a variety of fabrics for nests or canopies offer almost **unlimited possibilities**. Even for twins, or usual beds (such as futons or box springs) - there's a perfect babybay® for everyone.

## INSPIRATION FROM NATURE

We use only **natural beech wood** from European forests and **no** questionable glulam or even cheap wood substitutes. Beechwood is naturally **antistatic and antibacterial**.

## MASTER OF TRANSFORMATION

Once your baby has outgrown the cot, you can easily **expand and re-use** the babybay® as a high chair, playpen, bench, table or turn it into the children's bed of your dreams.

## TESTED & SAFE

Of course, babybay® is **TÜV-tested**. All nests and mattresses are consistently **tested for harmful substances**. Our mattresses carry the **„Confidence in Textile“ seal** according to OEKO-TEX® Standard 100 and comply with the **latest standard DIN EN 16890** for cribs and cribs.

With a few simple steps, our babybay® can be easily expanded and transformed!

Children's bed

\* Table top

Writing and playing table

\* with no additional accessories

Children's bench

\* this is already integrated into babybay® Comfort beds

# The original babybay® – our all-rounder.

## At home anywhere - our crib with locking grid and wheels

Locking grille and silent wheels turn your babybay® side-sleeper bed into a complete crib. And with the right bedding nest your baby is completely safe and protected from draughts.

## This is where dreams come true – expanding to form a children's bed

You can easily convert your babybay® Original or Maxi into a fully-fledged children's bed, including a slatted frame of infinitely adjustable sleeping surface, removable slip rungs and a completely removable side rail.

## A cuddly retreat - our children's bench

Without additional accessories, your babybay® can also be converted into a comfortable children's bench with height-adjustable seat height.

## Always romp around safely – expanding to form a playpen

Two babybay® beds become a practical playpen. The key here is the adjustable floor surface.

## For those who are head and shoulders above the rest – the converting to a high chair

This optional re-assembly is easy –with or without a separate table. The seat and footrest can always be adjusted precisely to the height of your child.

## Learning by playing - expanding to form a writing and playing table

Your babybay® can just as easily become a continuously height-adjustable writing or game table that accompanies your child into school age.

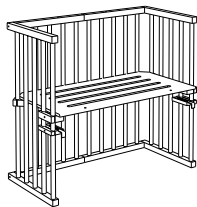

**Highly recommended by kidsgo:** "The babybay® makes everything so much easier and creates a great closeness to the baby!"

**Midwives have tested babybay and are thrilled:**  
"beautiful product for mothers and children ... of high quality ... a great solution ... an absolutely safe night's sleep"

# babybay® – all models at a glance.

*Standard*

## **babybay® Midi**

- **Suitable for allergy sufferers**
- **Removable cover** and **machine washable** up to 60 °C

# Your needs are our ideas – our original babybay® accessories.

## Closing grille

With the practical locking grille, the baby sleeps **safely even when lying alone**. The grille snaps into the bottom plate **with a handle** and is securely locked in place at the top with two spring-loaded lugs.

## Crib wheels

Together with the **abrasion-resistant, lockable wheels** babybay® becomes a fully-fledged crib.

## Bed extension

A simple kit **extends the sleep surface** forward and thus **bridges wide bed edges** up to 15 cm. Including white mattress extension.

# This is where children's dreams come true – the babybay® children's bed for big kids.

## Ingenious expansion to form a children's bed

When your little one has outgrown the babybay®, we have the perfect solution: In a few simple steps, you can expand your babybay® Original, Maxi or Boxspring to a fully-fledged children's bed.

A slatted frame allows the necessary air circulation and with the right **mattress climate, extra-airy** or **Medicott® extra-airy**, your child feels completely comfortable. Of course, the **sleep surface is also infinitely height adjustable** here.

Thanks to **removable slip rungs** and a **removable side rail**, our bed fits optimally to the development of your child.

There is also a **soft duvet cover** with hand-embroidered application, **matching nest** and a **breathable canopy** with colour-coordinated banderole – also suitable for any other children's bed.

*Grows with your child!*

*babybay® conversion kit*

## So safe and sound you can touch it.

### A soft nest with a dreamlike canopy

Make your babybay your own individual dream bed: with the protective, soft nest and the matching breathable canopy in **fresh colours**, your baby is **completely protected** and **protected from draughts**.

With loops or velcro closures, the bedding nest can be easily and securely fastened and easily removed for washing at any time. You have the choice between **Cotton**, **Organic Cotton** from organic farming, and the slightly structured Piqué, tested according to OEKO-TEX® Standard 100.

## High quality covers

Lining in terry or jersey and hygienic climate covers - perfect for your babybay® mattress and proven babybay® quality.

\* Piqué Ultrafresh is available in all Piqué colour patterns

# Accessories for wellbeing.

**babybay® pillow tube – supports and protects your baby anytime!**

**Supports and protects against draughts** and hard edges, soft and cuddly for mummy and her darling. Safe and secure while sleeping, playing, cuddling.

The pillow tube is available in 15 **different patterns and in two sizes**: suitable for the babybay® crib and a larger version for children and toddler's beds. Bis 40 °C waschbar.

*Also with name,  
if required!*

Wunschname

**Utensilo – the important little things always at hand**

**Stow away elegantly** all the little things your baby often needs. With three velcro straps, it can be **easily and safely attached** to the babybay®. The utensil is available in six warm colours - to match our bedding nests and sleeping bags.

*non-slip  
cuff*

### **Sleeping bag made of organic cotton – sleeping like in mummy's tummy**

The safe alternative to a duvet! Many colours and patterns to **match the colour of the nest**. Breathable cotton cover with **soft jersey lining** and wide, elastic cuffs. Also usable in child carseat. Machine washable at 40 ° C and suitable for tumble drying.

### **Sleeping bag made of Organic Cotton – warm and soft**

With the new babybay sleeping bag made of pleasantly soft, organic organic cotton, your baby sleeps heavenly **soft and warm** and in the **breathable, skin-friendly jersey lining** your baby feels happy and safe. Due to the two-step push button system, the sleeping bag can be adjusted in length. An **all-round zipper** makes putting on and taking off easier. Length: approx. 70 cm

*Grows with  
your child!*
